## **For Immediate Release:**

### **Nonprofit Accounting Firm Jitasa Announces Big News for Unions**

*Nonprofit Advocate Jitasa acquires Labor Union Specialists Dynamic Shared Services*

**Boise, ID---April 3rd, 2015---**Today, Jitasa, a local [Boise, Idaho] company specializing in accounting services for nonprofits, announced the acquisition of the company Dynamic Shared Services (DSS), a leader in using technology and software-as-a-service to improve the operations of their clients.

Both organizations have a shared commitment to serving the nonprofit sector, seeking to streamline processes and raise efficiencies of the nonprofit community while improving their effectiveness. According to Jeff Russell, the CEO and Founder of Jitasa, “Deciding on this acquisition was simple. Our decision was based on the answer to a single question: ‘Will our clients and the clients of DSS be better off before the acquisition or after the acquisition?’ When it became obvious that collectively we could provide a higher quality solution, it was an easy decision to make.”

He continued by stating that “Joining forces with DSS allows us to expand our national footprint and deepen our knowledge base – particularly with 501c5 organizations. We continue to look for the right opportunities to leverage technology and merge with other firms who share our passion to make affordable solutions that improve the efficiencies of the nonprofit space.”

This addition will allow unions to gain better control of their organizations while improving the accuracy and security of their data. Jitasa will also provide unions access to the only software that combines accounting tasks with membership and dues requirements into a single database.

Andrew Fass, Managing Partner at DSS is positive about these new possibilities, he stated, "We feel confident this strategic transaction will immediately benefit our clients. Combining Jitasa's well-orchestrated delivery model with the labor union specialization of Dynamic Shared Services will create a new large-scale outsourcing platform that will help labor unions to better focus on their missions"

Jitasa is excited to combine the expertise that DSS and their employees offer with their Spirit of Serving Others and their goal to broaden the outreach of the nonprofit sector. Their continued year over year growth combined with the opportunities this acquisition provides will lead to a positive future.
